

VACANCY ANNOUNCEMENT

Himalayan Distillery Limited stands at the forefront of Nepal's alcoholic beverage industry, renowned for its legacy of excellence, product innovation, and market leadership. Home to iconic brands such as Golden Oak, Black Oak, and recently launched Silver Oak, we have continuously shaped consumer preferences and set new standards across Nepali alco-bev landscape. Powered by state-of-the-art manufacturing unit and an expansive distribution network, we are committed to scaling new frontiers in quality, performance, and brand experience. As we embark on our next phase of transformational growth, we invite driven and future-ready professionals to become part of our journey in redefining the spirit of Nepal from the Himalayas.

1. **Position:** Senior Officer – Store

Requirement: 1

Role Summary:

The Senior Officer – Store is responsible for overseeing inventory management, stock control, and warehouse operations for the brand collateral store at the Head Office. This role ensures accurate stock records, timely issuance of materials, and compliance with store procedures. The position works closely with the Administration and Operations teams to minimize discrepancies, reduce wastage, and support overall supply chain effectiveness.

Minimum Required Education & Experience:

Bachelor's degree in Management, Commerce, or a related field (master's preferred); minimum 5 years of experience in store or supply chain management, or 10+2 Graduate with 9 years of experience in store or supply chain management, with at least 4 years in a supervisory role.

2. **Position:** Shift Incharge – Distillation

Requirement: 1

Role Summary:

The Shift Incharge (Distillation) is responsible for overseeing distillation operations during assigned shifts, ensuring process efficiency, quality control, and adherence to standard operating procedures. This role monitors production parameters, troubleshoots process inconsistencies, supervises shift staff, and maintains compliance with safety and regulatory standards. The position works closely with the production team to minimize product loss and achieve production targets.

Minimum Required Education & Experience:

Bachelor's degree in Chemical Engineering, Food Technology, or a related field; minimum 3 years of experience in distillation or process operations, preferably in the beverage or chemical industry. Prior shift supervision experience is highly desirable.
